

# Black Fire Upon Us

Dethklok

Tonight we ride on clouds of fire  
We're damned by gods our Deths conspired  
We fear no mortals in these worlds  
The gift we give you is your soul

Fly with us tonight

The Sky  
Will Break  
Black Fire  
Will Wake

Fly on through the night  
We Built an alliance  
Our numbers are strong

We gather  
But we don't pray to Gods  
What fools what lunatics  
They must think of us

On this night we will journey  
Far beyond this world  
And you must know that we will never  
Come back home again

But now we must fly  
Beast in the night  
Tragic in the sky  
Battlefield in sight

Storm gathers strong  
Cold Blackened flame  
Tell us our future  
Stories of the slain

Fire grows strong  
Freezing our skin  
Vision is clouded  
The rain will begin

Dangerous creature  
(Dangerous creature)  
Those that oppose us  
(Those that oppose us)  
Raped all their power  
(Raped all their power)  
Bartered with Warlocks  
(Bartered with Warlocks)  
Cheated the demons  
(Cheated the demons)  
For Ancient spells  
(For Ancient spells)  
The blackened fire  
(The blackened fire)  
Waits to consume us  
(Waits to consume us)

So now we'll say goodbye  
Because tonight we die  
So we say goodbye  
So we'll say goodbye  
We die  
Tonight we ride on clouds of fire  
We're damned by Gods our Deaths conspired  
We fear no mortals in these worlds  
The gift we give you is your soul
