Dreams of pain, never wanna know Everybody talks and you're on your own Would you be OK if you're left alone forever?

But it ain't no way for a boy to grow You'll never take a break when you're on a roll And all that time you'll never know forever

In this life we've grown a little In this life we've lived a little So they say

...so they say

So on that way that you've gotta go Your eyes were always on the door And everybody thought that you'd won the war...

In this life I've grown a little In this life I've lived a little

So they say...

God I love you
I won't let you down,
God I love you

Goodbye.
