Traveller

The life I have Is the life I've always wanted and there's no more feeling low... Early morning, and I'm on the go! Here I'm finally on the road... On the road! And I wanna put my faith in you babe But I have to face it in another way Let go...free from all Now I'm a traveller...traveller...travel around. But don't worry baby I need someplace to call my home ... never worry baby I need someone to call my own. RIGHT! And I wanna put my faith in you babe But I have to face it in another way I wanna put my faith in you babe... So let go...free from all Let go...I'll free fall Now I'm a traveller... (travel around!) ...traveller... traveller... (travel around!) ...traveller... traveller... (travel around!) ... TRAVELLER... TRAVELLER... TRAVEL AROUND!
