

For You And Forever

Dew-Scented

Transmogrified
By the beauty of this phobia
I thought I had seen them all
And forgotten was my wish
To find life
In this world of misery
My tiny passionflower
This is meant for you and forever

Return me to these days
Where no sin ever caused pains
Please recover my bitter loss
And put an end to my disgrace

Far afield the sky
But your perfume brightens my faith
No more I dream
My trivial round is my kingdom
I touch the maze
To feel reborn in purity
Just listen to my words
I was made for you and forever

For you and forever I die
