

# First Blood

Dezperadoz

I've gone and got myself, In trouble full of Hate  
Changing all my ways, Before it was to late

Shades of bood is all I see, I could not hold my tears  
Fragments of what used to be, Another fate was sealed

Don't beleave it wont come true  
It'll happen soon to me and you  
Peolple say you can't denie  
Your blood runs hot before you die.

Firt blood  
I never will forget  
This day that changed my life  
First Blood  
Is filling up my head  
When I close my eyes  
First Blood

A dying man lies in the dirt, A bullet in his face  
He's twiching as he wets him self, In this godforsaken place

For those who kill their fellow man, Don't you cross my way  
For you I am the law, On this, your dying day

Don't beleave it won't come true  
It'll happen soon to me and you  
Peolple say you can't denie  
Your blood runs hot before you die.

First blood  
I never will forget  
This day that changed my life  
First Blood  
Is filling up my head  
When I close my eyes  
First Blood

And even thogh you try  
You can run but you cannot hide  
First Blood  
Who's mamma gonna cry  
As time goes by  
First Blood

And even thogh you try  
You can run but you cannot hide  
First Blood  
Whos mamma gonna cry  
As time goes by  
First Blood

I never will forget  
This day that changed my life  
First Blood  
Is filing up my head  
When I close my eyes
