

## Fading And Falling

DGM

This pain will waste away  
But not tonight  
I can't breathe you out  
It's raining

All you give me is always out of chance  
Then you bring me down  
Every time you want that  
Are you fine now?

Save me when I feel despair  
Cause I'm fading  
I want to be right by your side

I'm fading and falling  
Let me be a part of you now  
When I'm lost in your eyes  
Everything is going to change  
Are you in love?

Won't you save me?

I can't wait by myself  
I can't do it anymore  
I can't wait by myself  
When you feel that I'm falling  
Will you save me?

Save me when I feel despair  
I can't leave this without you right by my side  
Cause I'm fading can't you see my pain?  
Will you save me?  
Let me sleep right by your side  
Feel it again, fading and falling  
Feel it again, again, again
