

# Live To Love

DeGarmo, Diana

It's 3 a.m., wide awake in my bed  
I've had these dreams so deep in my head  
It's time to make 'em my life

Funny how we always try to plan every moment  
Still we forget all the things that make us feel live

I'm gonna live to love  
Live to laugh  
I still learn from my past  
Gonna live to be who I wanna be  
To let go and just believe  
I'll get everything that I dreamed of  
And my brightest days are happy cuz  
I live to love

The big oak tree's tapping on my window  
It's clear to me, better late than never  
But I ain't gonna sleep tonight

Funny how we always try to plan every moment  
Still we forget all the things that make us feel live

I'm gonna live to love  
Live to laugh  
I still learn from my past  
Gonna live to be who I wanna be  
To let go and just believe  
I'll get everything that I dreamed of  
And my brightest days are happy cuz  
I live to love

Felt like I'd done everything wrong  
Like the world had given up on me  
I thought why even try  
When everything's so far away?  
Then I took a look at myself  
I just had to believe  
I can still do anything, yeah.

So I'm gonna live to laugh  
Live to laugh  
I still learn from my past  
Gonna live to be who I wanna be  
To let go and just believe  
I'll get everything that I dreamed of  
And my brightest days are happy cuz  
I live to love  
Oh, I live to love  
Ooh, I live to love
