I walk home with snow falling Deep on, frozen loneliness And I'll leave all those celebrating All the things that they have done

I'll come over to your office
And watch 'em come and go
Though I know
I won't see you there

Now take a train down to the coast And sit and watch a scene I'll be sitting there Alone

And as usual above all things I miss you every day Without pause

Happy new year my darling Happy new year

I walk home with snow falling Deep on, frozen loneliness And I'll leave all those celebrating All the things that they have done

Happy new year my darling Happy new year
