

# Master Of The Wind

## Die Apokalyptischen Reiter

In the silence of the darkness when all are fast asleep  
I live inside a dream calling to your spirit  
As a sail calls the wind, hear the angels sing

Far beyond the sun across the western sky  
Reach into the blackness find a silver line  
In a voice I whisper a candle in the night  
We'll carry all our dreams in a single dream of light

Close your eyes, look into the dream  
Winds of change will winds of fortune bring

Fly away to a rainbow in the sky gold is at the end for each of  
us to find  
There the road begins where another one will end  
Here the four winds know who will break and who will bend  
All to be the master of the wind

Falling stars now light my way  
My life was written on the wind  
Clouds above, clouds below  
High ascend the dream within

When the wind fills the sky the clouds will move aside  
And there will be the road to all our dreams  
For any day that stings two better days it brings

Nothing is as bad as it seems  
Close your eyes, look into the dream  
Wins of change will winds of fortune bring

Fly away to a rainbow in the sky gold is at the end for each of  
us to find  
There the road begins where another one will end  
Here the four winds know who will break and who will bend  
All to be the master of the wind
