

Come a Little Closer

Dierks Bentley

Come a little closer baby, I feel like laying you down
On a bed of sweet surrender, where we can work it all out
There ain't nothing that love can't fix, girl it's right here at
our fingertips

So come a little closer baby, I feel like laying you down

Come a little closer baby, I feel like letting go
Of everything that stands between us, and the love we used to know

I wanna touch you like a cleansing rain and let it wash all the
hurt away

So come a little closer baby, I feel like letting go

If there's still a chance, then take my hand, and we'll steal a
way

Up into the night, to make things right, the suns gonna rise on
a better day

Come a little closer baby, I feel like stripping it down
Back to the basics of you and me, and what makes the world go round

Every inch of you against my skin, I wanna be stronger than we've
ever been

So come a little closer, I feel like stripping it down

Come a little closer baby, just a little bit closer

Come a little closer baby, I feel like laying you down
