

# We Got More

## Digital Underground

Mammy zammy damn there's nothin to me  
But when they rock us in the streets we say "Ooo we"  
You see the freak in the beat she do me  
I hit that mitty bitty wit the sticky ooo we gooy  
I got more funk in my left in my left pinky toe  
I got more soul in my style  
Then they will ever know  
I got more rhythm than I'll ever need to show  
We got them groceries bro  
Yo Luniz let go.

I got the flow so let the Luni man take over  
Get deep into my hold  
If ya lost, then picture gold  
I heard styles that others stole  
But it's no original flow  
Like the Luniz an the man wit the nose.

Notice my flows kick like a loaded Mac-11  
Ghetto heavy, could climb wit mo "Good Times" than James Devin  
Glock wars  
Meanin you criticize Tupac for  
Homies in the hood, we strap Rugers an "We Got More".

Didn't ya know  
Our brothas got more  
So check the new flow  
'Cause here we go-e-o-we-oh.  
Look how we throw  
A lil sumpthin to roll to  
Hold you, from the O-we-O-we-O.

I got that Voodoo runnin through my veins  
Quit  
Suppressed yes  
Crazy no  
Not insane  
I smoothie through the menu then I make my order  
I got that dominate gene  
So if ya 'noid hide yo daughter  
The love ya givin is based on what I do for you  
For the right amount of money you probably let me ??? you  
I like to glide up in it, but I got my pride  
Ain't no whore  
Don't second guess yo man 'cause he got more.

Studio gangstas want to battle, well let's battle  
I blasted  
They plastic ass get put under ground wit the fragments.

Snaggle tooth rhymers wit no flavor  
Save a gang a neighbors  
Then move away so they won't be called haters.

Captain Save-A-Hoe  
Up-up an away ya go  
The "O" is too unfadeable.

But don't trip  
Get a grip  
Make ya own skit  
Be sure  
Before  
You slide through the door 'cause "We Got More".

Didn't ya know  
Our brothas got more  
So check the new flow  
'Cause here we go-e-o-we-oh.  
Look how we throw  
A lil sumpthin to roll to  
Bump hoes to  
From the O-we-O-we-O.
