

Worst Comes To Worst

Dilated Peoples

Worst come to worst my peoples come first
Worst come to worst
Worst come to worst my peoples come first
Worst come to worst
Worst come to worst my peoples come first

Yo, some people got good friends, at night I live my life right
Intense, on the edge
On the wild, I'm from the group where friction leads to fire
Stack your bricks, the time is take your pick, do or don't, the track
Alchemist, yo, my life is good, I got my peeps in the mix, so

Worst come to worst my people come first

I got worldwide family all over the earth
And I worry 'bout 'em all for whatever it's worth
From the birth to the hearse, the streets, the guns burst
Words I disperse are here to free minds
And if mine are needy I need to feed mine

When worst come to worst

Set up shop and write a verse, actually, what?, that's best come to best
My lyrics take care of me, they therapy get shit off my chest
Extra stress, three-four over the score
Different patterns of rhyming prepare me for war
So next time you see us we'll be deadly on tour

Worst come to worst my peoples come first

Word up, if worst comes to worst, I make whole crews disperse
You know it's family first
Gifted Unlimited with Dilated Peoples, Babu, Evidence, Iriscience
And a shout out to my man Alchemist on the trizzack

Worst come to worst my peoples come first

I'm a glutton for the truth, even though truth hurts
I've studied with my peoples on streets and in church
We make it hard when we go on first
Long road, honor of the samurai code
These California streets ain't paved with gold

Worst come to worst my people come first

Uh, I got them back, at the end of the day
We could go our separate ways but the songs remains, it won't change
Got my target locked at range
I might switch gears but first I switch lanes
Without my people I got nothin' to gain that's why

Worst come to worst my people come first

Special victims unit, catalyst for movement
Creates to devastate, since '84 show improvement
Definitely Dilated Peoples comes first
Cross-trainin' spar, we raise the bar

And we put it in your ear no matter who you are

Worst come to worst my peoples come first

Worst come to worst

Worst come to worst my peoples come first

My, my, my peoples come first

Oh, when you need me
