

No Bones

Dinosaur Jr.

Hey babe, thought maybe
Can't feel right today.
Wish it didn't faze me
Can't handle you their way.

Will I surround you, entombed and warm
Don't lie to her, no bones, no form.
The vast expanses, will leech you dry
you'll shiver all summer

Hey babe, can't do it.
Can't put you there again.
Can't deal, can't go through it
If there only was a when

Will I surround you, entombed and warm.
Don't lie to her, no bones, no form.
The vast expanses, the need to grind
they'll summon
