

## We're Not Alone

Dinosaur Jr.

I've been lying softly, glued to the ground  
I don't need to listen, I just need the sound  
piece it all together, let me out  
When it's almost over there's a doubt to get through  
I wanted you to say  
'be around'

I wanted you to say  
'be around'

keep an eye on my eye  
keep me straight  
keep an eye on every move I make or think of  
keep the past out of my weathered head  
keep me guessing, keep me  
keep me and I'll help

I wanted you to say  
'be around'  
like you are now

If you say 'we're not alone
