

# Twisted

Dio

It's just a matter of time  
He was the victim and he never saw the crime  
He had invisible eyes  
He told you truth but you were sure of it, lies

'Cause he was twisted (you could see it)  
He was twisted, all right

He was the fortunate one  
He could have pulled the trigger  
But he couldn't get the gun  
They told him that he was blind  
He didn't understand  
'Cause he could see them inside

They were twisted, oh  
So Twisted  
You could feel it they were  
Twisted  
Twisted up inside

Look inside any window  
Come on and see the show  
It's the same generation  
They set you free  
But they just won't let you go - no

It was a matter of time  
They told me I was guilty  
So I thought I did the crime  
I never learned how to cry  
And when I told the truth  
They were sure it was a lie  
Sure that I would cry  
Sure of it  
Sure of it 'cause I'm so  
Twisted

She's twisted up inside  
They're twisted  
We're twisted  
And when you're twisted  
There's just no place to hide away
