

Heaven Help Me

Dion

Heaven help me
I kissed the lips of an angel
I tasted the wine from the heavenly vine from above

Heaven help me
I lost my heart in the halo
What a surprise
I find the stars in her eyes
I'm in love

Well I never thought it would happen to me
Dreams were all I had in store
Woah
It's no wonder why I'm helpless now
I never met an angel before

Heaven help me
To keep her love for a lifetime
For nothing is worth more than true love on earth for an angel

Well, I told you once it never happened to me
Why don't you know what I had in store
Woah
It's no wonder why I'm helpless now
I never met an angel before

Heaven help me
I lost my heart in the halo
What a surprise, I find the stars in her eyes
I'm in love

Heaven help me (4x)
