

About That Life

Diplo

She's just my type
She doing right
She go all night
I seen the light

Got my feet on the ground, my head in the clouds
My feet on the ground, my head in the clouds I'm feel the sun,
do you hear that sound

I step outside
I slip and slide
I don't know why
I'm about that life

It's a new horizon, now I know who I am
It's a new religion, yeah it takes me away

Got my feet on the ground, my head in the clouds
My feet on the ground, my head in the clouds I'm feel the sun,
do you hear that sound

Got my feet on the ground, my head in the clouds
My feet on the ground, my head in the clouds
