

Bay of Biscay

Disco Ensemble

In the wildest storm you go and set your sail
Someone's waiting in the stomach of a whale
I would do anything
I would do anything to get you off from staring at the waves
Bay of Biscay
Bay of Biscay

Deeper in the blue you're diving down
Like it doesn't really matter if you drown
You would do anything
You would do anything to get to throw yourself into the waves

Bay of Biscay
Bay of Biscay
The jabone of a tiger shark
The ten tentacles of a giant squid
The depths are calling
The depths are calling into the Bay of Biscay

We could have been friends forever, friends forever
Eternally stick together, stick together
We'd drag each other to the shore
We could have been friends forever, friends forever

I would do anything
I would do anything to get you back from the Bay of Biscay
Get caught by the jabone of a tiger shark
The ten tentacles of a giant squid
The backbone of a men in half
