# Poltergeist

**Disco Ensemble**

Invisible machinery
Underneath the tapestry
Creating de-reality
And it works with the logic of nightmares

Something's taking over me

Invisible machinery
Pushing the economy
Sucking out the life from me
And it works with the logic of nightmares

Something's taking over me
Someone get it off of me

Take a look into the camera
Hold on to your soul
Take a look into the camera
Hold on to your soul
