Disco

Discoballs

All the time you're just
trying to put me off
Almost time to make up
another story
By the way I try to say
the same every day
By the way I try to say
the same every night

Don't wanna to lie to you
like every night
Just wanna play it safe
Don't even start trying to
make it right
so tell me, now
what you want again

You're for most af all
just normal guy
Just enought for you
to start to worry
By the way I try to say
the same every day
By the way I try to say
the same every night.
