

## Echoes Of My Sadness

Dissolving of Prodigy

Look of my eyes, full of sadness  
Spread diffusely on affable curves  
Of your innocent body.  
My sorrow is waterfall dash to pieces  
About crystal surface of fabled luck,  
Later dresses in blossom of Narcissus.  
I stray to gather fragments of your voice.

Echo!

In mourning hopeless I heart  
In my inside terrible lamentation.  
My bankless longing, like snow flake  
Dissolve my hope.  
I cry and your mouth stay mute.

In your palms of hand I give you my heart - my heart  
Unfathomable fate knows, if to you belongs - belongs  
Where my lamentations wafts wind only - only  
There my soul dreams about you - to you  
My lost luck dresses in blossom of Narcissus.  
I stay to gather fragments of your voice.

Echo!
