

## Desire

Dixie Chicks

Last night I took a turn I never should  
I knew nothing good could come of this  
Morning's come now and the smoke has cleared

How did I get here from a single kiss  
I can't undo what's been done  
No matter what I say I got caught up in desire  
When the web's already spun  
The trouble's just begun I can't make it go away  
Can't undo what's been done

When I get home there will be hell to pay  
I wish there was a way to ease the pain  
Then my tears would fall, fall like pouring rain  
In a heartbeat I could lose it all

I can't undo what's been done  
No matter what I say When the web's already spun  
The trouble's just begun I got caught up in desire  
I can't make it go away  
Can't undo what's been done

When the web's already spun I got caught up in desire  
I can't undo what's been done  
No matter what I say  
The trouble's just begun  
I can't make it go away

Can't undo what's been done  
No I can't undo what's been done
