

Green River

Dixie Chicks

Take me back to the Green River
Let my troubles roll on down
That's when my baby's love was still around
Take me when the leaves are falling

How plain was the picture in my mind
Autumn leaves were paint in the water
My memories take me to the Green River

Love was shining in your eyes
How I long for us to return
To the love we had back then Darling,
I'll be waiting a lifetime

How I miss the sound of the water
Gently flowing past the trees
For you to take me back again How I miss your tender kisses
The way you once loved me
