The Thrill Is in the Chase

Dixie Chicks

Girls never like to know Their love for him is true Cause the nature of the beast Says he wants to pursue He wants what he cannot have And he won't be outdone Cause he'll always love the one that keeps him on the run

The thrill is in the chase And I guess they know that too Cause I've been running long and hard And can't catch up to you Girls if you think you've found true love Keep your poker face Cause I know better, the thrill is in the chase

If he's far, far away Don't call him on the phone Never let him know You spend some nights alone I can tell you one thing more That I've found to be true That he'll always love the one that makes him blue

The thrill is in the chase And I guess they know that too Cause I've been running long and hard And can't catch up to you Girls if you think you've found true love Keep your poker face Cause I know better, the thrill is in the chase

Girls if you think you've found true love Keep your poker face Cause I know better, the thrill is in the chase

Cause I know better, the thrill is in the chase
