

Whistles and Bells

Dixie Chicks

Whistles and bells won't ever bring you love and happiness
She's never gonna give her heart the way that I would give
With her lights, buzzers, whistles and bells
She's got you spinning round in circles, I can tell

I see her running round this town in her fancy car
A girl who can't afford your hopes and dreams
But darlin' all those pretty toys won't help your broken heart
When she's through and sends you packin' back to me

She's never gonna give her heart the way that I would give
Whistles and bells won't ever bring you love and happiness
She's got you spinning round in circles, I can tell

With her lights, buzzers, whistles and bells
I cried those lonely tears until the day I realized
That you were hurting so much more than me

There are some things in this world that just don't have a price
Whistles and bells won't ever bring you love and happiness
Like the love that waits here for you patiently
With her lights, buzzers, whistles and bells
She's never gonna give her heart the way that I would give
She's got you spinning round in circles, I can tell
She's got you spinning round in circles, I can tell
With her lights, buzzers, whistles and bells
