

Live it alive

DJ Antoine

Who gives a fuck about later
Its all about now
I know that we could be amazing
Like stars on fire

This is our time
I know we can make it through
I'll be right here
Destination anywhere
Living alive
This feels so fucking right
You and I
Its the only way
Everyday
I'm gonna live it, live it, live it alive
Live it, live it, live it alive

Its all about taking chances
Over and over
Going through changes
You know I'm a fighter
For you, yeah

This is our time
I know we can make it through
I'll be right here
Destination anywhere
Live it alive
This feels so fucking right
You and I
Its the only way
Every day
I'm gonna live it, live it, live it alive
Live it, live it, live it alive
Live it, live it, live it alive
Live it, live it, live it alive
