

## (Intro) I'm So Grateful

DJ Khaled

DJ Khaled!

I wanna say thank you for the time and the love you share  
All the help and the effort just to get me there  
When everyone turned their back you showed me how much you care  
You believed in me never forget you I swear

I'm so grateful for all you've done to bless your soul  
With the riches of love forever  
Every last time  
It's a human blessing, hey, let it flow  
It's a pleasure

Put my trust in the most high and my prayers are so consistent  
Who'd have thought, it would be like this today  
Nothing beat prayers, lift up your red lion in the jungle  
I tell ya, he whom have been blessed

Welcome to Grateful (strength is strength)  
To realise and appreciate your blessings  
Embrace your blessings from your heart  
Express your gratitude from doing righteous deeds  
Asahd, my son - I love you  
Thank you God  
I also want to thank all my enemies, for turning they backs on  
me  
Thank you  
I'm so...

I'm so grateful for all you've done to bless your soul  
With the riches of love forever  
Every last time  
It's a human blessing, hey, let it flow  
It's a pleasure

Power is up an hour, searching for a better way out
