## **Think**

## **Dog Eat Dog**

I don't even hear what you say It's all about what you do You think you're the mack I'll tell you a fact No-one gives a fuck about you

What it is
What is was
And what you always will be
Think
You think you're my friend
You ain't my friend

I hear you talking about respect and clout You never get a bit A front or a back We're gonna smack Time to flip the script on you kid
