

# Under The Gun

Dokken

So long baby bleed  
Had more than enough time to burn it all  
Down to the core  
Of your bottomless soul  
Thought you always wanted to be free

I won't miss you when you're gone  
So hard to believe it went on for so long  
But I'll carry on without you  
Like before

You will have  
Your day in the sun  
Close your eyes it's gonna burn  
Your day in the sun  
Will you ever learn?

So long baby blue  
Waited so long but you never came through  
We dried all your tears  
Thought you were the one I could believe in

I won't miss you when I'm gone  
It's hard to believe this went on for so long
