

# What If It Takes All Night

Don Johnson

What a change it's gonna be  
Out there on my own  
I wonder if you think of me  
After I am gone

Tonight  
I came to tell you  
You've gotta set me free  
But baby don't start crying  
I never wanna leave

What if it takes all night  
Until we say goodbye  
What if I say these words  
And then I realize  
That I really came to say  
Girl I'll never go away  
So what if it takes all my life  
To say goodbye

Promises I made to keep  
Are better left alone  
I can only guarantee  
That I will love you from now on

Tonight I came to tell you  
It wasn't meant to be  
But seeing you has given me  
a reason to believe

What if it takes all night  
Before we close our eyes  
What if I say these words  
And then I realize  
That I really came to say  
Girl I'll never go away  
So what if it takes all my life  
To say goodbye

What'll it take to make you see  
That you're the only one  
If it takes all night  
If it takes all night  
If it takes all my life

What if it takes all night  
Before we close our eyes  
What if I say these words  
And then I realize  
That I really came to say  
Girl I'll never go away  
So what if it takes all my life  
To say goodbye

So, what if it takes all night  
What if it takes all my life  
What if it takes all night

Oh, to say goodbye  
What if it takes all night  
Girl I don't wanna let go  
What if it takes all night  
What if it takes all my life  
What if it takes all night
