

# Love In My Heart

Don McLean

Well there's food on the table and love in my heart  
And a real good woman and a couple of kids  
And a dog that thinks I'm smart  
I got a big old mortgage on a little old house  
And a car that'll sometimes start  
But there's food on the table and love in my heart

Oh, the roof is leaking but I care not  
Gather those buckets, pans and pots  
Carry 'em throw 'em in the sink a lot  
I turn the heat up higher

I don't have much that didn't come free  
Bills eat up my salary  
But I can still hang goodies on a Christmas tree  
And sing by crackling fire

And there's food on the table and love in my heart  
And a real good woman and a couple of kids  
And a dog that thinks I'm smart  
I got a big old mortgage on a little old house  
And a car that'll sometimes start  
But there's food on the table and love in my heart

Well I don't have money but I sure ain't poor  
Many a rich man still wants more  
Sooner or later he buys the store  
And he still ain't satisfied

It never took much to make me smile  
A new pair of jeans to keep in style  
And a little bit of loving every once in a while  
To stroke my foolish pride

And some food on the table and love in my heart  
And a real good woman to call me honey  
And to hold me in the dark  
Oh, the winds may howl and the roof cave in  
And the world may fall apart  
But there's food on the table and love in my heart

Food on the table and love in my heart  
And a real good woman and a couple of kids  
And a dog that thinks I'm smart  
I got a big old mortgage on a little old house  
And a car that'll sometimes start  
But there's food on the table and love in my heart  
Food on the table and love in my heart
