

# I've Been Looking For Christmas

Donny Osmond

Blue and green, red and white  
Broken hearts strung on Christmas lights  
Hanging up the mistletoe if you've got someone to kiss you, baby  
Don't let them go, I hear the angels sing 'Gloria'  
Love is the gift he brings

I've been looking for Christmas  
On the streets in the faces passing by  
I've been searching for Christmas  
Well, it's right there in your eyes

Years ago I still believed in silent night  
Oh, Christmas tree I fell behind old memories  
I think it's time to gather these  
I hear the angels saying "Home is where the heart is"  
This is the gift that I bring

I've been looking for Christmas  
On the streets in the faces passing by  
I've been searching for Christmas  
Well, it's right there in your eyes

Let it snow, let it snow, let it snow anywhere but here  
It's been cold, so cold, so cold  
All this time that you were not here  
I hear the children saying, "God bless one and all"  
These are the gifts they bring

I've been looking for Christmas  
On the streets in the faces passing by  
I've been searching for Christmas  
Well, it's right there in your eyes  
Well, it's right there in your eyes  
Well, it's right there in your eyes
