Ours

Donny Osmond

Ours, a love that's yours and mine Until the end of time, always on my mind Ooh, at times, the feeling that we share I know the way you care, ours is always there

Just let it be always together, you and me Throughout the land, walking together hand in hand We understand that

Ours, ours will long endure Ours belongs for sure Ours forever more

Throughout the land, walking together hand in hand We understand that

Ours, ours will long endure Ours belongs for sure Ours forever more, ours forever more Ours forever more
