

# Stop The Clocks

Donots

Lies  
Demand another lie  
No matter how i try  
Wish i could disappear  
I know myself  
I know myself well enough  
Down  
The only way is down  
My face down on the ground  
What am i doing here?  
I know myself  
I know myself well enough  
And if i could stop the clocks  
If i could make this moment mine  
I'd make the most of a bad time  
I wish i could stop the clocks  
And wash away those lies  
It's all that i could wish for tonight  
Down  
The only way is down  
My face down on the ground  
What am i doing here?  
I know myself  
I know myself well enough  
And now my angels need angels  
To help me get out of this hell  
I know myself well enough  
To know that i don't know myself  
And if i could stop the clocks  
If i could make this moment mine  
I'd make the most of a bad time  
I wish i could stop the clocks  
And wash away those lies  
It's all that i could wish for tonight  
And if i could stop the clocks  
If i could make this moment mine  
I'd make the most of a bad time  
I wish i could stop the clocks  
And wash away those lies  
It's all that i could wish for tonight
