

Time Is Here and Gone

The Doobie Brothers

It keeps on getting better
How life keeps movin' on
Children growing older
Seems I just looked over
Found that time was here and gone
Oh yeah
Seems like time is here and gone
I know they're getting closer
The answers that have haunted me
Lookin' for some help
My best friend was myself
I never thought I'd live this long
Oh yeah
Seems like time is here and gone

What used to worry me
Well it don't worry me
Who knows the reason or the rhyme
The years that I got left
You know I'll make the most of mine

Here and gone
Here and gone
Seems like time is here and gone
