

You Can Be Replaced

Dot Allison

We took all the laws
And threw them away
We're the only ones
Who saw the call Mayday

Held by the throat
With backs against the wall
The bottom looks like up
When you have got the ball

We are your rivals
We're the survivors
I'm not phased
You can be replaced

You've got the power
To give your cluelessness a voice
Saying loads of nothing
With a lot of noise

Walk down the street
Resentment in your eyes
There's something free in us
That you despise

We are your rivals
We're the survivors
I'm not phased
You can be replaced

We are your rivals
We're the survivors
I'm not phased
You can be replaced

We are your rivals
We're the survivors
I'm not phased
You can be replaced

We are your rivals
We're the survivors
I'm not phased
You can be replaced

We are your rivals
We're the survivors
I'm not phased
You can be replaced

We are your rivals
We're the survivors
I'm not phased
You can be replaced
