You Can Be Replaced

Dot Allison

We took all the laws And threw them away We're the only ones Who saw the call Mayday

Held by the throat With backs against the wall The bottom looks like up When you have got the ball

We are your rivals We're the survivors I'm not phased You can be replaced

You've got the power
To give your cluelessness a voice
Saying loads of nothing
With a lot of noise

Walk down the street
Resentment in your eyes
There's something free in us
That you despise

We are your rivals We're the survivors I'm not phased You can be replaced

We are your rivals We're the survivors I'm not phased You can be replaced

We're the survivors I'm not phased You can be replaced

We are your rivals We're the survivors I'm not phased You can be replaced

We're the survivors I'm not phased
You can be replaced

We are your rivals We're the survivors I'm not phased You can be replaced
