Double You

I gave you all I gave you everything My true desire But what you did not know I gave you all I gave you everything A man in chains Thinking of love And you were there for me Chorus Why do we love thinking of love But you will find away Why do we love thinking of you But can you always say I gave you all I gave you everything Our hearts were gold Thinking of love But you would always say Why do we love thinking of love But you would hide away Why do we give thinking of love And love will always stay Repeat Chorus Why do we give thinking of love And love will always stay
