

## Mess Around

Dr. John

Yeah yeah

Yeah, you all get down, and mess around

Ah this is my little style of boogie

It's what you call radiatin', a radiatin'

You know what I'm saying

Yeah everybody go ahead, and get down

I go home and break down

You know someone's got that backyard BBQ

Everybody's doin' it baby, something new

We're gonna mess around

Gonna get down, and mess around

Yeah gonna mess around

See that little girl, with the diamond nng

She's surely knows how, to do her thing

She'll know, how to mess around

She'll gonna get down, and mess around

Everybody go ahead and get down

Now I'm gonna play a little piano for you

Ah go ahead, and play that saxophone

Go ahead and you take Sally, and I'll take Sue

Gonna do the funky thing, baby, me and you

We're gonna mess around

Everybody get down, and mess around

Everybody go ahead, and get down

You all got to do the mess around

You all break down, yeah now

Break down, and mess around

Just gimme that real good thing

Keep doin' my thing, been messin' around

You're doing that funky thing

When you're doing that mess around

Everybody break down

Get down, oh, everybody do it

Go ahead and mess around

Go for that story and get down

I said everybody get down

Everybody do that little mess around

Oh mess around, get down and mess around
