

Find My Way Home

Dragon

When I first saw you
And held you in my arms
There was a kind of light around you
You were golden
You were divine
You were flesh and blood
You were mine

I fought for years
To find my way home
And when I made it back
I looked around and you had gone
All I can say now is go you own way
All I can say now Is go you own way

When I first saw you
The world was upside down
You held my hand
And walked beside me
There was sunshine
In your eyes

Come back again
Someday won't ya
