

# Get Lucky

Dragonette

Sometimes the sun shines on us  
Sometimes the rain goes and a rainbow's all that's left  
We got lucky hey  
Didn't we  
Baby

'Cause I like your head on my shoulder  
I like the way you smile  
The way you smile woo-hoo  
We both think the weather's getting better  
So lets get lucky  
Let's go all the way

I found you seaside in the fall  
I hadn't tried, I wasn't looking for anything at all  
The cloud cover above  
Couldn't hide someone to love  
And your mine

And I like my head on your shoulder  
I like the way you smile  
The way you smile woo-hoo  
We both think the weather's getting better  
So let's get lucky  
Let's go all the way

All the way  
Get lucky  
The weatherman says  
It's wet and cloudy  
Stay in doors  
Sit out the storm  
It looks like this might be a quickie

Hey handsome we've got it good  
Hey Mr. we've gone and done it  
Just because we could  
'Cause it's cloudy out  
We're staying in like we should

'Cause I like your head on my shoulder  
Me, I like the way you smile  
The way you smile woo-hoo  
We both know the weather will get better  
So let's get lucky  
Let's go all the way

Let's get lucky  
Come on go all the way
