The Last Journey Home

DragonForce

Strangers to reason, our bleeding hearts so cold Life brings a change it seems and fear will blind the soul In the silence one only will know Cast aways, can it fall on the wastelands?

Send the soul from the forgotten sickness and save his life Challenge the dream before the long departing, your mind is right

Whoa, hear the burning thunder roar Whoa, whoa, still lost in a fire storm Tonight we feel the past return

Lost inside the dream, despite the life we'll live forever Still the wasted time left burning below One thousand shattered voices, lost inside an endless wonder Tonight her voice will take me home

Shine glorious we ride, we stare into the blackened sky Save the last command, the virtue blinding So far beyond the sun, still blinded with the fire inside Once alone again, silence stands for our last journey home

Our lives intensified, mutation, frustration Ever lasting lifetime in beyond the world We'll travel endlessly, they're moving disjointed One man can understand his sad misery

Whoa, whoa, whoa They've taken my heart, they've taken my soul And now we stand below in sanity

In time we'll see the past unwind Alive still wander in a fallen land One more time we stare into the blackened sky For tonight in our hearts now we feel One last time see our destiny reveal

Shine glorious we ride, we stare into the blackened sky Save the last command, the virtue blinding So far beyond the sun, still blinded with the fire inside Once alone again, the silence stands

Shine glorious tonight, still blinded by the blackened sun Save the last command, forever rising So far beyond they come, still blinded with the fire inside Once alone again, silence stands for our last journey home Silence stands for our last journey home
