

Rebellion - The Kingdom of Heaven

Dragonsfire

Rise against, the empire's lost
Liberation at any cost
Now call to arms, brothers by my side
We fight for freedom, we fight for our lives

Rebellion's here
The change is near
Everyone's ready to...

Die! Die! Die! Die!

Too long we suffered, under their hands
The noble lords, they are not grand
The old religion, powered with gold
Is overcome because heaven's not sold

Rebellion's here
The change is near
This is a good day to die
Into the fight, into the light, rebellion, rebellion
Into the fight, into the light, rebellion on our minds
Into the fight, into the light, rebellion, rebellion
Into the fight, into the light, rebellion on our minds

We won't pay for salvation
No one obey their godless law
The fear of death is what they sell
Now come with me and let's send them to hell

Rebellion's here
The change is near
This is a good day to die

Into the fight, into the light, rebellion, rebellion
Into the fight, into the light, rebellion on our minds
Into the fight, into the light, rebellion, rebellion
Into the fight, into the light, rebellion on our minds

We're no servants, anymore
This is what we are all fighting for
Now call to arms, brothers by my side
Fight for freedom, fight for our lives

Rebellion's here
The change is near
Everyone's ready to...

Die! Die! Die! Die!

Rebellion's here
The change is near
This is a good day to die

Into the fight, into the light, rebellion, rebellion
Into the fight, into the light, rebellion on our minds
Into the fight, into the light, rebellion, rebellion
Into the fight, into the light, rebellion on our minds

All fight for liberty, the kingdom of heaven
All shall live in unity, now and everyday
All fight for liberty, the kingdom of heaven
All shall live in unity, now and everyday
