

# Emotionless

Drake

You've got me feeling emotions  
Higher, ooah  
You've got me fe-  
You've, ohh

Don't link me  
Don't hit me when you hear this and tell me your favorite song  
Don't tell me how you knew it would be like this all along  
I know the truth is you won't love me until I'm gone  
And even then the thing that comes after is movin' on  
I can't even capture the feeling I had at first  
Meeting all my heroes like seeing how magic works  
The people I look up to are going from bad to worse  
Their actions out of character even when they rehearse  
Working in the land of the free, the home of the brave  
I gotta bring my brothers or else I feel out of place  
Breakin' speed records on roads that these niggas paved  
And they don't like that it's written all on they face  
I don't know how I'ma make it out of here clean  
Can't even keep track of who plays for the other team  
Iconic duos rip and split at the seams  
Good hearted people are takin' it to extremes  
Leavin' me in limbo to question what I believe  
Leavin' me to ask what's their motive and makin' peace  
Leavin' me to not trust anybody I meet  
Leavin' me to ask is there anybody like me?

You've got me fe-  
You've, ohh  
You've got me fe-  
You, ohh  
Ayye

Missing out on my years  
It's time when I wish I was where I was  
Back when I used to wish I was here  
Missing out on my days  
Scrolling through life and fishing for praise  
Opinions from total strangers take me out of my ways  
I'm tryna see who's there on the other end of the shade  
Most times it's just somebody that's underage  
That's probably just alone and afraid  
And lashin' out so that someone else can feel they pain  
I always hear people complain about the place that they live  
That all the people here fake and they got nothin' to give  
'Cause they been starin' at somebody else's version of shit  
That makes another city seem more exciting than it is  
I know a girl whose one goal was to visit Rome  
Then she finally got to Rome  
And all she did was post pictures for people at home  
'Cause all that mattered was impressin' everybody she's known  
I know another girl that's cryin' out for help  
But her latest caption is "Leave me alone"  
I know a girl happily married 'til she puts down her phone  
I know a girl that saves pictures from places she's flown  
To post later and make it look like she still on the go  
Look at the way we live

I wasn't hiding my kid from the world  
I was hiding the world from my kid  
From empty souls who just wake up and looked to debate  
Until you starin' at your seed, you can never relate  
Breakin' news in my life, I don't run to the blogs  
The only ones I wanna tell are the ones I can call  
They always ask, "Why let the story run if it's false?"  
You know a wise man once said nothin' at all  
I'm exhausted and drained I can't even pretend  
All these people takin' miles when you give 'em an inch  
All these followers but who gon' follow me to the end  
I guess I'll make it to the end and I'ma find out then

You've got me fe-  
You've, ohh  
Ayye  
Higher, higher  
You've got me fe-  
You've, ohh  
Ayye  
Higher, higher
