

Bringing The Metal Back

Dream Evil

1-2-3-4

Risen from the ashes
Dusting off the dust
Wipe away the cobweb
Polish off the rust
Born to spread the gospel
Missionary men
Bringing back the metal again...

Who brought the metal back?
Back from beyond the black
Who brought the metal back?

Six feet under buried
Hidden in the ground
The steel detectors pick up
The sharp metallic sound
Catch us as we're ghoul-like
Digging in the dirt
Must bring back the metal
To the earth

To bring the metal back
Right from beyond the black
We bring the metal back
Back from beyond the black

Misinterpretations of the holy book
A product of a madman
That everyone mistook
It's time to choose a leader
To lead us through despair
The book of heavy metal is here...

Who brought the metal back?! Back again!
Who brought the metal back?!
Worthy art thou who recycle the metal!

Who brought the metal back?!
