

Things I would love to have undone  
Those thoughts are useless, now you are gone  
I've never felt this way before  
Trapped in this darkness forevermore  
You left me lonely like the leaves left on the ground  
All brown and withered, I was lost but never found  
Lost but never found  
I know that you knew that I'd die for you  
I know that you knew that I'd die for you  
We were as one, now I have none  
Our love was strong and all so pure  
Those times we had, both good and bad  
Will stay with me forevermore  
I always thought I was so strong  
Nothing could harm me, oh was I wrong  
I won the fight but lost the war  
Now in the valley of death I walk forevermore  
I know that you knew that I'd die for you  
I know that you knew that I'd die for you  
We were as one, now I have none  
Our love was strong and all so pure  
Those times we had, both good and bad  
Will stay with me forevermore  
Am I damned to walk alone  
Through the darkness and the storm  
I will meet you again the day that I die  
We were as one, now I have none  
Our love was strong and all so pure  
Those times we had, both good and bad  
Will stay with me forevermore
