It's time to surrender, you know we feel no fear Inferior contender, your men will not survive You better tell your mortals, to step aside Or be the last man standing to watch them die

Immortal, forever we stand in line

Battlefield burning, arroes shadow the sky
I feel the yearning, longing to see their skin fry
Too late to beg for mercy, to step aside
This is your termination just say goodbye

Immortal, forever, we just can't die

I am immortal, I cannot die, you better run and hide We are immortal, we rule the slaughter, and side by side we rid e

Immortal, forever, we stand in line Immortal, forever, we just can't die Immortal, forever, we stand in line

I am immortal, I cannot die, you better run and hide We are immortal, we rule the slaughter, and side by side we rid e

We are immortal, we show no fear, you better step aside We are immortal, we rule the slaughter, and side by side we rid e
