

This is my fate

It won't change

I am hopeless

This is my fate

It won't change

I am hopeless

This is my fate

It won't change

I am hopeless

This is my fate

It won't change

I am hopeless

Where would I be now and where could I be if I grew up in who's house

in who's home a different reality

Where could I be now without this fate in my life

What is my purpose here is it to feel right

Where could I be

This is my little life

Not for granted

Our lives are already said

Our lives are already determined

Where would I be now and where could I be if I grew up in who's house

in who's home a different reality

Where could I be now without this fate in my life

What is my purpose here is it to feel right

Where could I be

This is my little life

Not for granted

Our lives are already said

Our lives are already determined

This is my fate
