

# I Do Believe

Drive-By Truckers

I do believe I do believe  
I do believe I saw you standing there  
Sunlight in your hair  
Reflecting in your eyes  
I was only five years old  
Riding in your top-down Mustang  
Taking me out to the beach  
Your eyes matched the skies  
I believe I saw your shadow looking like 1967  
Percy Sledge on the radio  
Or maybe Spanish songs  
All my troubles swept away  
The ocean on my scraped up knees  
You could never stand to be away from me too long  
I do believe I do believe I know that you would never  
leave me  
And when you slipped the earthly binds you still live in  
my mind  
And when I'm gone, again I'll find  
My way back into your kitchen  
And see you standing there in the window's shine  
I do believe I do believe  
You're standing there in emerald green  
In the afternoon  
Oh so long ago
