

Human Interest

Drive Like Jehu

You set it up, you set it right,
It's fair enough. al'right:
If i want a loan, if i wanna trespass.
Why should i walk when you've got wheels.
When i'm in doubt, when i'm in debt,
When i'm in deep at your expense.
Then i owe you. i owe you. i owe.

I'd never make you suffer, i know that wouldn't do,
And that ain't practical, and i ain't through.
When what i got needs fixing, when i want something new,
I know i'm covered with you. your're my human interest...
